

Acid Resistant Mineral Fiber Rubber Sheet

Code: RGSB704

Rubber & Gasket Supplies Co., Ltd

Description

Acid resisting Mineral Fiber rubber sheet is made of good Mineral Fiber with acid resistant synthetic rubber compression heating and compression molding.

Acid Resistant Mineral Fiber Rubber Sheet

Item no.: RGSB704

* Acid Resistance

* Wide range of pressure and temperature

Item no.: RGSB704

Typical Application

* Mainly used for the equipment in acid

* Sealing gaskets for the flange of pipeline joint.

Technical Data

Acid resisting asbestos rubber sheets physical property		
JIQ/c20-86		
Item	B70420	B70435
Color		
Horizontal Strain \geq Mpa	14	20
Weight increasing \leq %	30 Sulphuric	40 Hydrochloric
Strain Reducing \leq %	50	60
Aging coefficient	0.9	
Softness	No crack	
Density g/cm ³	1.6~2.0	
Burning loss %	30	
Compressibility	12+/-5	
Elasticity \geq %	40	

Dimensions

4100x1500x(0.5~6.0)mm, 2000x1500x(0.5~6.0)mm

1500x1360x(0.5~6.0)mm, 3810x1270x(0.5~6.0)mm

1270x1270x(0.5~6.0)mm, 1500x1500x(0.5~6.0)mm

The other size is optional or according to the requirements of customers.
