

# Hard Mica Sheet

Code: RGSB502

## Description

RGS hard mica sheet is used as a replacement for asbestos and other insulating board for a variety of applications. High performance thermal and electrical insulation is designed for electromechanical application requirement.

**RGSB502W -- Soft white mica sheet**

**RGSB502G -- Golden Mica Sheet**

Hard Mica Sheet

Item no.: RGSB502

- \* Instead of asbestos
- \* High mechanical strength and good of heat resistance.

Item no.: RGSB502

---

## Typical Application

- \* For insulating, used in metallurgy, chemical engineering and electric heater, etc
- \* Electromechanical
